

INVENTORY

www.xinixinsurance.co.za

Please complete this inventory to determine the replacement value of assets, room by room and in total.
The values must be based on the replacement value of the assets as "new."
Do not include any items that are insured as specified items for all risks.

Please note:
Underinsurance can have serious consequences when the condition of average is applied.
For example, you insure for R250 000 instead of R500 000 (you are therefore only 50% insured).
You suffer major damage to the value of R100 000. You will be entitled to claim only 50% of the loss
and will have to find the other R50 000 yourself.
